

# Sapphire Windows

## Features

- High Precision Dimension
- Minimal Transmitted Beam Deviation
- Excellent Environmental Durability

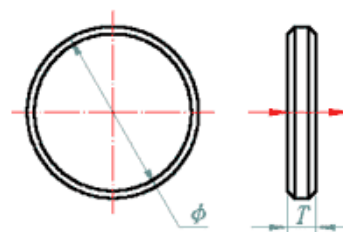

## Applications

- Projection Optics System
- Imaging Optics System
- Optical Measurement System

## Specifications

Windows

Material	Anisotropic synthetic sapphire( $Al_2O_3$ )
Dimension tolerance	$\pm 0.1mm$
Parallelism	1arcmin
Surface quality	60-40 S/D
Wavefront distortion	1 $\lambda$ per25mm
Clear aperture	>90%
Bevel	Protective bevel

## Standard Products

Φ(mm)	Part No.	T(mm)	Unit price
8.0	HWN151	0.9	\$16.0
10.0	HWN152	1.0	\$18.0
15.0	HWN153	2.0	\$35.0
25.0	HWN154	2.0	\$45.0

Other size and coating are available upon request.
