

Wedge Prisms

Features

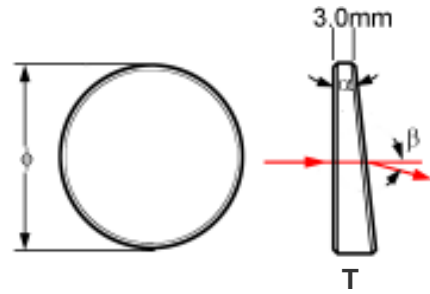

- High Precision Dimension
- High Precision Light Deviation

Applications

- Projection Optics System
- Imaging Optics System
- Optical Display System
- Optical Measurement System

Specifications

Material	BK7
Dimension tolerance	±0.1mm
Deviation	±1 arcmin
Surface quality	60-40 S/D
Surface flatness	λ/4@632.8nm
Clear aperture	>85%
Thickness of thin edge	3.0mm
Bevel	Protective bevel
Coating	Specified by customer
