

Anamorphic Prisms

Features

- High Precision Dimension
- High Precision Angle Control

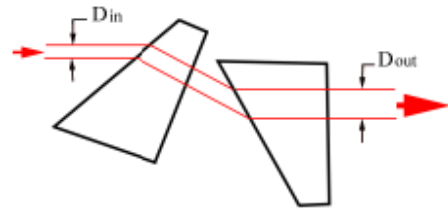

Applications

- Laser Optics System
- Optical Display System
- Optical Measurement System

Specifications

Material	SF11
Dimension tolerance	±0.1mm
Angle	$\theta=29^{\circ}27'\pm30''$
Surface quality	60-40 S/D
Surface flatness	$\lambda/8@632.8\text{nm}$
Clear aperture	>85%
Bevel	Protective bevel
